

NETWORK ORGANISER DESK

Hallam Network Organiser

High-Tech work-stations for computer control suites, network operation centres and control rooms.

Steel construction and wide foot stability permits high equipment loads in a multi-layered design.

The Network Organiser can be consistently tailored to future requirements. This leading modular system opens up a whole new dimension in computer room furniture. Space saving, flexible, modular and completely future-proof design.

Network Organiser Desk meets these demands with a cost effective and flexible solution.

Advantages

- > Expandable modular system.
- > All steel construction.
- > Durable powder-coat finish
- > Various sized modules that can easily be altered and adjusted as equipment needs change
- > Pullout base server shelves.
- > Desk shelves - metal and wooden
- > Standard and space saver shelving
- > Monitor shelving
- > Keyboard shelving
- > Power distribution units
- > Various data panel cable management options.

Patching Field adapter plates allow 19" format patch panels and other network equipment to be directly mounted onto the Network Organiser. Only available in 600mm module size.

Horizontal Cable Duct – Ensures network and power cables are kept neat and tidy. Reduces the risk of accidental disconnection.

Technical Description

The Network Organiser Desk is an all metal modular solution based on common components. First select the height and width of the Frame Module (1200 to 2100 mm high by 600 to 1800 wide). Bays may be joined together in any combination of module widths. All frames come complete with adjustable leveling feet.

Select the desk shelf, base server shelf (fixed or pull-out), monitor and accessory shelves, cable ducts and data & power management panels.

Sample Configuration

P/N 1960012 (19" Adaptor Bracket 6RU)
600mm module only

P/N 451205 (Standard Shelf 1200W x 450D)

P/N 3511206 (Space Saver Shelf 1200W x 350D)
P/N 3566006 (Space Saver Shelf 600W x 350D)

P/N 216001 (Frame Module 2100H x 600W)

P/N 120008 (Monitor & K/B Tilt Shelf)

P/N 601004 (Desk Shelf 600W x 1000D)

P/N 121004 (Desk Shelf 1200W x 1000D)

P/N 211201 (Frame Module 2100H x 1200W)

P/N 120003 (Base Shelf Pull-Out)

Network Organiser Desk Specifications

Width mm	600, 1200, 1800 mm
Height mm	1200, 1500, 1800, 2100 mm
Depth mm	1070 mm
Design	Material 2.0 mm steel tube, welded frame, finish in black & off white. Qty 4x Leveling Feet per Frame Module. Other colour combinations available
Base Server Shelf	Fixed, Telescopic Pull-Out
Accessories	
Power Distribution	Horizontal Frame Mounting (6, 8, 10, 12, 14, 15, 16, 18, 20, & 25 outlet)
Data Distribution	Any 3rd Party EIA 19" Panel
Horizontal & Vertical Cable Ducts	40mm x 60mm, 60mm x 80mm
19" Mounting Adaptor Plate	EIA 19" in 4U, 6U, 12U, 18U

Design Considerations

1. Supplied in flat pack for client assembly, freight and on-site installation available on request charged at normal Time & Materials rates.
2. Seismic bolt-down possible, on a case by case basis.
3. If rear access is not possible - recommend telescopic base server shelf and NO rear frame cable ducts.
4. EIA 19" adaptor brackets designed for data cabling and small LAN equipment, NOT server installation. 600mm module only.
5. Match with ServerRack or MiniRack for sites which contain a mixture of rack mount, desk top and tower servers.
