SIEMENS FLEXIBLE CABLE AT CABLES PLUS

PROTOFLEX - EMV

Variable Speed Drive Cable

Specifically designed low capacitance screened cable for connection between AC variable speed drives and motors. Suitable for fixed installation and occasional freely flexing applications in dry, damp and wet conditions.

- Not suitable for direct installation into the ground or submersion in water.

PROTOFLEX

PVC Control Cable

Proflex PVC control cables are specially suitable for use as flexible control cables.

- Fans & A/C systems
- Machine tools
- Production machines
- Processing machines
- Industrial robots

ØZOFLEX

Heavy Duty EPR/CSP Rubber Cable

Submersible to 100 mts plus
Heavy duty construction

- Sites leads for drills & pumps ~ Saws & kangos
- Cranes & hoists ~ Festoon systems
- Steelworks & rolling mills ~ Stage & theatre power
- Hand held drills ~ Grinders & welders
- Agricultural equipment ~ Portable motors

SINGE CORE 3.3kV 110

Heavy Flexible, 110°C Single Core Rubber Cable

Submersible to 100 mts

- Switchboard cabling ~ Sub-mains ~ Traction vehicles
- Battery banks ~ Machine cabling ~ Equipment cabling
- Steelworks ~ Cranes & hoists ~ Stackers & reclaimers
- DC wiring ~ 415/1000V installations

EVA 125

High Temp. 125°C Flame Retardant Halogen Free Cable

High thermal stress resistant

- Switchboard cabling ~ Coils & transformers
- Chemical industry ~ Ceramics industry ~ Steelworks

SINOTHERM

High Temperature 180°C Silicone Flexible Cable

- Switchboard wiring ~ Cubicle wiring
- Transformer cabling ~ Capacitor cabling
- High output floodlights ~ Chemical industry
- Ceramic industry ~ Injection moulding
- Extruders ~ Steelworks ~ Hotstrip rolling mills
- Foundries ~ Cooking plants ~ Heating appliances ~ Motor rewinders
